JOSEPH F. OSSANNA

The Unix community was saddened, and greatly diminished, by the recent death of Joe Ossanna. As author of NROFF/TROFF he spoke to us at the Urbana meeting and those of us who used early versions of the typesetter package will forever be in his debt for the generosity with which he gave of his time to explain the obvious to us. We join with his many friends at Bell Laboratories in expressing our sympathy to his family.

AT LAST!

On February 27, 1978, Prentice-Hall will publish "The C Programming Language" by Dennis Ritchie and Brian Kernigan ($9.95). ned we say more?

STILL RUNNING LATE

We are still playing "catch-up". This newsletter is being prepared in early February 1978 and is the last issue of Volume 2. The next issue, nominally December-January, will be mailed before the end of February. Enclosed with that issue will be an invoice for Volume 3 (1978).

SOFTWARE DISTRIBUTION

We spoke too soon, in the last issue, about catching up in January. We had a disk failure which took both the newsletter and the software distribution off the air for the entire month of January. No copies of the Toronto Distribution have been mailed as yet. Mailings will resume soon. we hope.

TYPESETTER SIMULATION

This page appears twice in this issue. The first copy is the usual prototypesetter output. The second copy is the product of the Toronto typesetter simulator for the Versatec.

The spacing between characters in the Versatec simulation does not appear correct due to the fact that the phototypesetter is mounted with the Sovran font and therefore the Toronto software is taking those font widths into account in calculating its spacing even though it is printing using Roman fonts.

MOVING

Please note the new mailing address for Mel Ferentz. Editorial work will shift to Rockefeller University, the mailing list will remain at Brooklyn College, while typesetting and software distribution will continue to be done at CUNY/UCC.

The Rockefeller University has agreed to act as fiscal agent for the Users' Group. All checks, whether for tapes, subscriptions, mailing charges, or any other purpose should be made payable to "The Rockefeller University". The new invoice form, which is being prepared for the 1978 billing will reflect this change.

In order to assure proper delivery, all mail to the new address should be addressed to "Box 8".

NEW YORK MEETING

By this time you should have received, and returned, the form for reserving rooms at Columbia University for the New York Meeting. The rooms in the Columbia University dorms must be reserved, with deposit by the end of February. If you wish a room, but cannot generate a check in time, just send the form back, to "Box 8", marked "check will follow" and we will advance the money to Columbia for you.

Checks may be made out either as indicated on the reservation form or to the new fiscal agent.
